EW YORK, Oct. 24.-Probably the DUNT het importance to be attached to today's Stion ck market is the light it throws upon preceding markets. The day's reacwith entire lack of any change in we made pretty conclusive evidence of wholly professional character of the ward movement.

he demand for stocks in the loan deent of the stock exchange was not The than nominal today, indicating the reduction in the outstanding short great. The conclusion was accepted as

sonable, therafore, that yesterday's dion-share market was due to the coming of the retreat of a considerate short interest driven to cover by last ek's advance in prices and to the takes of profits by the party of professional culators which had conducted the operations for the advance.

I small increment from the outside defined attracted by the spurt in prices collitated the movement to take profits, ie joint effect was an extensive closing the profits of the market of today was left clear the profits of the fact that yester-indicated the movement to the profits of the fact that percent of prices to the highest record fact to the highest record iphic level of prices to the highest of the areand, in fact, to the highest record SER vices as a whole, was a subject of combent and doubtless an occasion for pause. In the low grade of some of the securities with the low grade of some of the securities and manner was also a subject for grave estioning. It is the experience of speculive markets that the stirring up of such curities as a class is resorted to only Barause the possibilities for advance in books of more substantial value have

James A. Pollock & Co., stock and grain rokers, 6 West Second South street, make jublic the following letters on the stock

market:

T. A. McIntyre & Co., New York, say:
"Tregular and feverish movements were
the features of the stock market today,
and speculative opinion is less optimistic
and there is greater disposition to pay attention to the pronounced strength in the

tention to the pronounced strength in the sterling exchange market and the possibility of a gold export movement later on as well as to the likelihood of a flurry in the local money market around November 1. The continued buying in S. P. is on one peated reports of early dividend action on that stock, although there is no reason to believe that any dividend will be declared on it this year. Some attention is being paid to the railway situation in the Northwest in connection with Mr. Harriman's return, but the market is so largely professional that fluctuations today should not represent anything more than the

professional that fluctuations today should not represent anything more than the operations of these traders. We don't see anything in the situation at the moment that would justify any sustained advance from this level and in view of money pos-sibilities considerable irregularity in steeks is indicated, and we would rather favor a scalping position for moderate returns."

Logan & Bryan New York, say

The Utah turkeys are scheduled to arrive about the 19th of November, or in ample sea-son for the annual family feetival-Thanksgiving. Just what effect their coming will have upon prices, dealers were unable to foretell, but thought the price named would prevall until after Thanksgiving, if not until

vall until after Thanksgiving, if not until well toward the Christmas holidays. And speaking of turkeys, there has been a slight decline in the price of chickens. Hens and springs. Eastern and Utah, are now all quoted at the same wholesale price, 15 cents a pound. Hens are much scarcer than spring chickens, and this is responsible for the seemingly high price as compared with the younger birds. The retail prices of both have been correspondingly reduced, and they are now seiling at 15 cents a pound.

a reaction should now occur but the strong buil interests are evidently trying to prolong the recession as long as possible with a view of distributing stocks. Money continues easy, around 3½ percent, and should any tendency to harden develop it could not fail to be reflected in the market."

Dick Brothers, New York, say:
"The market was erratic and nervous teday, and while there has been no real weakness the tone has been heavy. A few stocks, such as B. R. T. Reading, Smelters and New York Central have been strong, but under cover of advance in these, other stocks have been rather steadily supplied. Noteworthy weakness was seen in Rock Island issues, apparently because of liquidation. Money ruled easier, getting down to 3½ per cent, and there was no unfavorable news."

### WHEAT MARKET FIRM THE ENTIRE SESSION

Increased European Demand for Foodstuffs the Leading Bull Factor.

CHICAGO, Oct. 24.-The wheat market was firm throughout the entire session At the opening the December option was a shade to Worke higher, at 87c to 87%c. The principal cause of the initial firmness was an advance in the price of wheat at Liverpool, said to be due to smaller offerings of wheat from Russia and Danubian ports. Unsettled weather in the United States was another factor instrumental in stimulating purchases.

The Government bureau officially forecasted quite general rains for tomorrow Greatest significance, however, was at tached to cable news suggesting increased European demand for foodstuffs. A blockake, it was asserted, would seriouly ham-

per shipments of grain from Russia.

Shorts and commission houses were active bidders during the greater part of the day. For December the highest point of the session was reached at \$75,000. An increase of 1,575,000 bushels in the visible supply started some selling by pit traders late in the day. The close, however, was form with December at \$75,000. firm with December at 874,6787%c, a gain
